Van Buren maj.	5,496		Har. Major.	342	23,003	P. Maj.

The official returns of 1838 do not show the full vote. In Dauphin, two polls were held in Hanover; the vote at the Porter poll (221) was rejected. In Lycoming county, the vote of Youngwomanstown (giving nearly 500 majority for Ritner) was likewise rejected. In Philadelphia County, the vote of the Northern Liberties was rejected by return judges. The entire actual vote for Governor runs up—

David R. Porter,	133,555
Joseph Ritner,	126,029

Porter's majority,	7,526
--------------------	-------

In 1840, the vote was 288,036.—In 1841, the vote—adding the Abolition and all other votes—was 250,965.—One of the townships of Armstrong County was rejected. It gave a whig majority, and we have added it as a part of the vote of the State.—PORTER'S MAJORITY, 23,003.

OLMSTED PATENT STOVES, MANUFACTURED AND FOR SALE, *Wholesale and Retail, by* **SAMUEL LLOYD,** AT THE GIRARD BUILDINGS, 406 MARKET STREET, PHILADELPHIA.

It is very satisfactory to the proprietor that after a lapse of six years since the introduction of the above Stoves, that they still hold a decided superiority over all others in the estimation of the public. Scarcely a day passes during the cold season of the year but that some person calls at the manufactory to bear testimony to the excellency of this apparatus, as fully sustaining all that has been said or written in its favour, as being an economical and successful mode of heating apartments.

The objects aimed at in the construction of this Stove are—to be simple, so that it can be easily managed, to be quickly kindled, to be capable of affording a mild or intense heat according to the state of the weather, to preserve the air of the apartment pure and wholesome, to avoid all inconveniences from dust; and finally, to be cheap, durable, and economical in the use of fuel. How far this apparatus fulfils these conditions, may be inferred from the following certificate and recommendation.

From Alexander Henry, Esq., 254 Arch Street.—The subscriber has used Olmsted's Stove all last winter in his hall, breakfast-room, and chamber. Before he made the purchase he was favourably impressed in relation to their use. On trial, however, he found them to far exceed his expectations. They are easily managed, economical, and give out no dust.

LEWIS DEBOZEAR'S
BRASS AND BELL
FOUNDRY,
No. 9 BREAD STREET,
Philadelphia.

After an experience of thirteen years in the manufacture of Mineral Water Apparatuses, and preparing the Mineral Water, I am enabled to offer to the public a new and complete apparatus for the making of Mineral Waters. Also, all the necessary apparatus for the drawing of Mineral Water; some of which are of entirely new construction, and have given entire satisfaction. The uniformly increasing demand from all parts of the United States for the Mineral Pumps, is the best evidence of the superiority of them. The superior quality and manner of preparing the Mineral Water is well and favourably known to the citizens of the city and county of Philadelphia, during the number of years I have been in business, and is shown by the increasing demand for it.

Also, continues to cast to order every description of Bells, from one to ten thousand pounds weight. And having received from the Franklin Institute of Philadelphia, at their last exhibition, the highest premium for the Bell of the best tone and model, I believe that the many years experience in the business, and the numerous well-known proofs of the superior tone of my bells, throughout the United States, have sufficiently established the character of them. I, therefore, with confidence offer to the public an article that cannot be excelled.

N. B.—Bells and Mineral Water Apparatuses constantly on hand. All orders received and punctually attended to.
